

MH&W Renewable Energy Products

Engineering a More Sustainable Future

WINDPOWER 2010, momentum is building and we want to see you there!

Join us for what promises to be another exciting event taking place, May 23rd- 26th, 2010, in Dallas, Texas. Be sure to visit the **MH&W booth 3628** at **WINDPOWER 2010**. We will present the most up-to-date technology information, the freshest perspectives on the renewable energy markets and the most pertinent details on our new products. Technical experts and our top executives will be on hand to answer your questions.

WINDPOWER 2010 Conference and Exhibition is the largest in the world featuring over 15,000 attendees and over 1,200 exhibitors. We invite you to leverage this opportunity to learn about the latest industry developments and technologies, review new products and services in the expansive exhibit hall and network with leading industry decision makers.

Seeing Is Believing! There is nothing like seeing the leading solutions in action to understand how they can work for you. This may be one of the best events you can attend all year. **Register online today** by visiting the website at <http://2010.windpowerexpo.org/registration.cfm>.

MH&W will be exhibiting the latest products from the following manufacturers at **Windpower 2010**

- **Chang Sung MegaFlux Block Cores:** Block cores manufactured in the 26 permeability MegaFlux materials are advantageous in building DC/AC smoothing chokes (reactors) for the inverter circuit. Blocks are available in sizes up to 80mm in length.
- **Magnetec Cool Blue** – Cool Blue cores from Magnetec totally absorb unwanted asymmetric current, which runs over sensitive parts like bearing, gearboxes and couples into electrical control systems.
- **TDK and EPCOS** - MH&W International offers the broadest range of ferrite core materials and shapes with our long standing relationships with TDK Corp and EPCOS Corp (now TDK-EPC). Our ferrites are used in everything from powering control circuits to high switching frequency, high power transformers and output chokes.
- **Nesscap** - MH&W International has recently teamed up with Nesscap Co. to offer Electric Double Layer Capacitors, better known as Ultracaps. Nesscap is a world leader in the manufacture of Ultracaps with many patents.
